Throughout 2015 and 2016
Various ASEM countries

#ModelASEM

Overview

Background

Model ASEM is a political simulation of the actual [Asia-Europe Meeting \(ASEM\)](#) Summit to generate interest and increase awareness of the [ASEM process](#) among university students across all [ASEM Partner countries](#)¹. The Model ASEM spin-off editions materialised directly from the enthusiasm of participants at Model ASEM 2014 to engage further in such political simulations.

Each Model ASEM spin-off edition is a 3-day project self-organised by students local institutions who aspire to build platforms for young people to exchange perspectives on Asia-Europe collaborations, promote the ASEM process and build long-term relations between the young people of the two continents. In agreement with [Asia-Europe Foundation \(ASEF\)](#), ASEF might act as a supporter to a Model ASEM spin-off edition and provide intellectual, communication and some administrative support.

While the main Model ASEM is held alongside the actual ASEM Summit every two years alternating in Asia or in Europe, the spin-off editions are organised locally to capture the enthusiasm of the students' interest at a broader level. The spin-off editions are planned to be conducted in several ASEM countries throughout 2015 and 2016 to build up the momentum for the next large scale Model ASEM conference – the [7th Model ASEM](#) organised by ASEF in July 2016 in Ulaanbaatar, Mongolia in conjunction with the [11th ASEM Summit \(ASEM11\)](#).
