# EXISTING STRENGTHS IN VIETNAMESE STATISTICAL SYSTEM TO MONITORING AND EVALUATING SDG IMPLEMENTATION

- Legal frameworks for producing statistics:
  - Viet Nam Statistical Law 2015
  - Vietnam Statistical Development Strategy 2011-2020 and Vision to 2030
  - National statistical indicators system regulated in National Statistical Law cover 33 SDGs indicators
- Statistical production modern
  - Modernize the statistical production process: GSBPM, GSIM, CSPA...
  - Improving survey method and data source
  - Using standard classifications and integrated with international classifications
  - Strengthen applied information technology

# EXISTS STRENGTHS IN NATIONAL STATISTICAL SYSTEM TO MONITORING AND EVALUATING SDG IMPLEMENTATION

- Statistical Data available
  - tabulates about 90 SDG indicators of global framework
- Statistical System
  - Centralized statistics organization system (About 6000 staff)
  - Sectoral statistics organization

# PREPARE TO MONITORING AND EVALUATING SDG IMPLEMENTATION

## 1. Setting up SDG monitoring system

### *a) Regulate the statistic tools to monitor and evaluate SDG implementation*

- Regulation the scope of statistics Law includes: state statistics and non-state statistic.
- Issued the list of National Statistical Indicators System consists of 186 national indicators, of which 33 indicators at the global level.
- Regulate three types of collecting data (survey, reports, using administrative data for statistic)
- Improve the quality of statistics in other regulations

# PREPARE TO MONITORING AND EVALUATING SDG IMPLEMENTATION

## 1. Setting up SDG monitoring system

### *b)* Identifying the focal point, coordination of monitoring and evaluating SDGs implementation

- General Statistics Office – The focal point

- Any indicator proposed by Line Ministries or agency can be introduced into this system after the GSO assesses its propriety (in accordance with regulation of the 2015 Statistics Law).

- Define responsibilities of lines ministries in the monitoring and evaluating

# PREPARE TO MONITORING AND EVALUATING SDG IMPLEMENTATION

## 1. Setting up SDG monitoring system

### *c) Integrate the global statistical indicators into the national level*

Based on the results of review of SDG indicators at global frameworks, Viet Nam selected 33 indicators specified in the list of National Statistical Indicators System regulated in Statistics Law 2015...and selected many indicators specified in the other systems

# PREPARE TO MONITORING AND EVALUATING SDG IMPLEMENTATION

## 2. Strengthen national statistical capacity

- Strengthen using administrative data for statistical purpose
- Improving the survey method, using new data sources such as open data, big data...

Restructure statistical organization: to implement the Statistics Law 2015, Viet Nam is studying to restructure statistical organization in the end of 2016

- Human and financial resources management
- Training
- Ensuring that materials, buildings and equipment are adequate

# PREPARE TO MONITORING AND EVALUATING SDG IMPLEMENTATION

## **3. Build the Vietnamese SDG indicators framework**

- Review the flexible SDG indicators at global level;
- Build the Vietnamese SDG indicators framework based on Viet Nam Action plan to SDG implementation

Define the concept, content and calculation methods, data sources ...

# CHALLENGES AND CONSTRAINTS THAT NATIONAL STATISTICAL SYSTEM CURRENTLY FACE IN MEETING THE DEMANDS OF THE 2030 AGENDA

- Higher demand of data in case lack of statistic capacity
- New data sources require new survey methods
- Timeless of statistical information
- Statistical analysis and forecast skill is poor
- Weak - collaborate between statistical agencies in Ministries
- SDGs indicators

# THE CHALLENGES ARE FOCUS

CHALLENGES ARE CONSIDERING AS THE MAIN PRIORITIES TO TACKLE FIRST

- Using administrative data for official statistical activities:
- Modernize statistical business production process, completed standard classifications
- Strengthen the analysis and forecast skill
- Applied information technology and new statistical tools include data collection tools
- Strengthen capacity of statistical agencies in Ministries

**THANK YOU FOR  
ATTENTION!**
