

Workshop on Visualising Interconnections for Sustainable Development

Venue: Asia-Europe Foundation
Date: Saturday, 20 August 2016

- 9:00 – 9:10 **Registration**
- 9:10 – 9:20 **Welcome Remarks**
Ms Sunkyong LEE, Department Acting Director, ASEF
- 9:20 – 9:40 **Introduction to the Workshop**
Ms Dara LEE, Project Officer, ASEF
Ms Sadaf ANSARI, Lecturer, RVRC
- 9:40 – 9:55 **Ice Breaker**
- 9:55 – 10:20 **Getting Started with Creating Projects**
What makes a good project in the field of sustainable development? This session will provide input on how to create impact, while taking into account challenges in implementing projects on the ground.
- 10:20 – 11:30 **Project Incubator – Working Groups**
Persistent issues in sustainability can be understood through elements of a system and their interconnections. Groups will choose a sustainability issue to address by identifying key driving factors and looking at constraints that block the successful implementation of new solutions.
- 11:30 – 12:00 **Presentation of Working Group Findings** (Elevator Pitch: 5 mins each group)
- 12:00 – 13:00 **Lunch Break**
- 13:00 – 13:30 **Visualising Interconnections in a System**
Visualising system elements helps to visualise the interconnections between them and allows for the identification of leverage points for change.
- 13:30 – 14:30 **Working Groups on Interconnections & Project Plans**
- 14:30 – 15:00 **Plenary: Feedback Session & Follow up**
- 15:00 – 15:15 **Closing Remarks**
Representative from Ridge View Residential College
Representative from ASEF
