

**Progress of  
SDG Localization into Cambodian Context  
and Way Forward**

General Directorate of Planning  
Ministry of Planning

# What is SDGs?

- SDGs is the global agenda continuing from MDG;
- The development agenda after 2015; the agenda for 2030.
- MDGs more covered on Social sector;
- SDGs more covering all sectors, Social, Economic, environment, Culture ...;
- No one left behind in the SDGs Era;

# Why Need to Implement SDGs?

- SDGs is the global agenda for develop the world;
- Cambodia is a member of United Nations;
- Need to contribute to development and protect the earth.

# Why Need to Localization into National Context?

- There are 17 goals, 169 targets; and 232 Indicators for the global SDG;
- All goals, targets, and Indicators can apply for Cambodian context?;
- Which are the goals, targets, indicators can be selected?;
- Proxy indicators need to replace some global indicators;

# Progress of SDGs Localization into Cambodian Context

- Ministry of Planning was delegated by the Royal Government of Cambodia to lead facilitating in the process of localizing global SDGs into Cambodia Context;
- kick-off meeting on SDGs Localization in Nov. 2015 to introduce and review the list of global SDGs indicators;
- Conducted an inter-ministerial meeting on SDGs on 15 Jun 2016, on 11-12 Aug 2016, on 4-5 Oct 2016, on 10-11 Oct 2016, on 17-18 Oct 2016 ( to select indicators; define indicator's definition, method to calculate value of indicator; baseline, and quantitative targets of each indicator);
- 31 May 2017 and 29 September 2017 conducted Inter-ministerial meeting to discuss draft of CSDG framework;

# The Process of SDGs Localization into Cambodian Context

- The process is complicated;
- Select goals among the 17 goals,
- Select targets among the 169 targets; and
- Select indicators among 232 Indicators;
- Proxy indicators need to replace some global indicators;
- Cambodian Sustainable Development Goals (CSDGs) Framework is the result of the process of localisation;

# The Process of SDGs Localization into Cambodian Context (con't)

- Working with Indicators;
- Responsible agencies, data Sources, Cycle of data, definition, method calculation the value of indicators; [\(Table 1\)](#)
- Based line in 2015, target for each year from 2016-2030; [\(Table 2\)](#)

## Result of Localisation (con't)

- Total 18 goals, 151 targets; and 371 Indicators;
- While Global: 17 goals, 169 targets; and 232 Indicators;
- Note that the list of need to screen again due to some **indicators** are not complete criteria;
- The **indicators** will drop out from the list;

# Challenges

- According to Rapid Integration Assessment (RIA) only around 36% of SDG indicators have available data support;
- More indicators proposed by LMs-LAs; (371)
- 1 Goal, 3 targets, and 4 Indicators added for Cambodian context related to landmine clearance ;
- Some indicators are not complete criteria;
- Some do not have baseline and targets;
- Data support? data sources? Cycle?

## Challenges (con't)

- Data support are administration data and data from primary data (censuses and surveys)
- Most of Data are from Census and surveys, mostly support by DPs;
- Trend support from DPs decline, need to cover by national budget;
- In the sometimes, the additional indicators will need more surveys to conduct to collect data support while the budget are limited to conduct existing activities;

## Challenges (con't)

- Capacity of LMs-LAs are still limited in Identifying definitions, method to calculate value of indicators that caused the process of localization delay;
- Lack of budget to conduct activities to achieve CSDGs;
- Technical support need to integrate into NSDP.

# Way Forward

- Finalized CSDG Framework, with finalized list of indicators (both tables);
- Send to OCM for approval;
- Integrate into:
  - New NSDP 2019-2023 (CSDGs framework will integrate into 3 mandate of NSDP, 2019-2023, 2024-2028, and 2029-2033);
  - Sectorial Strategic Plan;
  - Sub-National Level Plans;
- M&E the progress of achievement CSDGs.

## Way Forward (con't)

- Need to develop activities to implement to achieve the targets of each indicator;
- Mobilise budget to implement the activities;
- and for Monitoring and Evaluation the progress of achievement CSDGs;

**Thank you !**
