

**SUSTAINABLE
DEVELOPMENT**

GOALS

Setting up National Follow up and Review Mechanisms

Presented by Khuyen Nguyen Dinh, VietNam

Overview

- Viet Nam action plan to implement SDGs (*regulated in Decision no 622*) included 17 goals, 115 targets (*the similar with 150 targets at global level*).
- In processing to built roadmap for SDGs.
- Beside that We have completed the Voluntary National Report (VNR)
- Completed Viet Nam statistical strategy implementation plan to monitor and reporting SDG (*approved by Minister of Ministry of Planning and investment*)
- In the process of localization SDG indicators (*In the latest draft includes 237 indicators*).

Setting up National Follow up and Review Mechanisms

General Statistics Office (GSO) is the focal point in all statistical activities

- + to coordinate all statistical activities in the national statistics system between line ministries;
- + to develop the national survey programme (*includes 57 surveys and 3 censuses*)
- + to expertize the Ministries indicator systems; Ministries reports systems, survey plans to collect data, classification use in surveys...
- + to expertize the data of national indicators (regulation on Statistic Law with *186 indicators*) what are collected by line ministries

GSO is the focal point in monitoring and evaluating SDG implementation

+ to develop Vietnam statistical strategy implementation plan to monitor and reporting SDG.

In this statistical strategy, we regulate all statistical activities have to do (*the content, the time to do, responsibilities of line ministries...*)

+ to develop the list of Viet Nam SDG indicators;

GSO is the focal point in monitoring and evaluating SDG implementation

- + to develop metadata of each indicator (concept, content, method of calculation, resources of data...)
 - + to define the responsibilities of line ministries to collect data.
 - + aggregate and disseminate SDG data
- 

GSO is the focal point in monitoring and evaluating SDG implementation

+ Regulate the statistic tools to monitor and report SDG implementation

✓ Issued the list of National Statistical Indicators System consists of 186 national indicators, of which 33 SDG indicators at the global level.

✓ Regulate three types of collecting data (survey, reports, using administrative data for statistic)

✓ Improve the quality of statistics in other regulations

***Integrate the global statistical indicators
into the national level***

- ***Review*** of feasible of SDG indicators at global frameworks in Viet Nam
- We select and localize SDG indicators at global level into national level
- Develop Viet Nam SDG indicators systems
- Compile some new SDG indicators in pilot, such as: indicators from many sources, from big data, administrative data...

Thank you for attention!
