PROGRAMME

Pre-event phase

**Do I need to prepare anything
before the on-site event?**

The ASEFSU21 integrates a 2-week long online-based preparatory phase where you will get familiar with the topic of inclusive societies. The phase will kick-start your preparations for the upcoming on-site phase and will require a couple of hours of work per week.

On-site phase

The programme will soon be published on the ASEFSU21 webpage.

Post-event phase

**Are there any commitments
after the project?**

The on-site phase is followed by a 4-week online post-project phase. In this phase all prototypes developed on site – analogue and digital – will be analysed and tested after the project by the relevant stakeholders and communities engaged. The participants will also play a crucial role in following-up on the initiatives and dissemination information about the lessons learned at the ASEFSU21.

The participants will further have the opportunity to engage in other ASEF activities, for example:

a) Participating in ASEM Ministerial Meetings/High level forums:

Represent the ASEM youth at major government officials and policy makers meetings.

b) Leaving a vibrant legacy

The ASEFSU21 challenge solutions will be analysed by the relevant stakeholders and implemented, where possible.

c) Attending alumni-led initiatives

Build networks with our ASEF community and continue the exchanges of ideas through online and offline platforms.

We always strive to understand the impact of our projects and may get in touch with former participants to conduct impact assessments.

„Glass marbles are celebrated worldwide for their structural simplicity and aesthetic beauty. Although they vary externally in size, structure, design and colour, the very substance which forms them internally is the same. The use of marbles in the designs of the ASEFSU21 is to signify that although each one of us is not the same, the elements that make us human are identical in nature.“
