

# ASEF Capacity Training

## Overview

### What is the #ASEF Capacity Trainings series?

The [ASEF Capacity Trainings 2017](#) series offers high-calibre trainings on leadership skills and employment management. The trainings are directly linked to the [2<sup>nd</sup> ASEF Young Leaders Summit \(ASEFYLS2\)](#) on youth employment and policy matters which took place on September 2017 in Seoul, Korea.

Two trainings will be held in Asia and Europe, with the first one taking place in Thessaloniki, Greece, and the second one in Vientiane, Lao PDR. The training is designed in a crash-course workshop format and provides meaningful and practical learning experiences for character and skills development with a focus on public speaking and networking as well as leadership competences.

#### The ASEF Capacity Trainings aim to:

Invite game-leading facilitators to bring up-to-date and action-focused trainings

Connect local youth leaders with the objective to trigger collaborations and further engagements with Asia-Europe education projects

Extend the opportunity to ASEFYLS2 applicants to get involved in ASEF's activities through locally organised workshops

ASEF proposes to organise the Capacity Training in Lao PDR on 9-10 October 2017. In partnership with the [National University of Laos \(NUOL\)](#), as well as the [Global Changemakers](#). The training welcomes about 40 local students, entrepreneurs and young professionals. Take a glimpse at the [previous trainings](#) in Phnom Penh, Cambodia (2015), Islamabad, Pakistan (2016), Dhaka, Bangladesh (2016), and Manila, the Philippines (2016).
