Participants

Ms Hillary PAN
Australia
Engineer
Arup

Hillary is a structural engineer at the engineering consultancy firm Arup. She is based in Sydney, Australia, and has three years of professional experience. As a structural engineer, she has worked on several city-shaping projects, each with a strong focus on sustainability.

Mr M M Azaz
Bangladesh
Faculty Member
Creative IT Institute

Azaz specialises in designing user experience and developing user interfaces and digital products. He believes a properly executed product and service design should translate into economic value for any business and human life. During his career, he has developed skills to become an expert in the field of tech, helping people to live a smart life and gaining experience in the field of visual and experience design.

Mr Mushtasin
Bangladesh
Diploma Student
Daffodil International Professional Training Institute

Mushtasin is currently pursuing a Bachelor’s Degree in Software Engineering at Daffodil International Professional Training Institute. At present he is serving as a web developer in a non-profit youth organization and regularly participates in UN volunteering engaging as a translator / interpreter. Mushtasin is actively involved in community work including volunteering as a French teacher for kids or organising seminars on mental health.

Mr Ifat Hasan
Bangladesh
Undergraduate Student
Daffodil International University

Ifat has a Bachelor’s Degree in Computer Science and Engineering from Daffodil International University, Bangladesh, where he focused on mature knowledge of C, networking, web design, front-end web development, and computer hardware and architecture. Ifat pursued an international internship program at IMUN (International Model United Nations). As Executive Director of Public Relations for the Social Business Student Forum, he collaborated with a variety of people for program planning and management, allowing him to adapt his communication style to diverse audiences.
Mr Md Tariqul ISLAM
Bangladesh
Research Assistant
Daffodil International University

Tariqul completed his Bachelor's Degree in Electronic Engineering at Daffodil International University, Bangladesh. His focus is Artificial Intelligence as a programmer and designer. Tariqul has completed multiple projects such as "Design and Hardware Implementation of Electric Bike with Smart Features and Automatic Security Lock", which he published in ICITE 202. Tariqul is also the founder of NAAB: Aerospace & Research Administration of Bangladesh, where he and his team research astronomy and space-related work.

Mr Jahid JONY
Bangladesh
Undergraduate Student
Daffodil International University

Jahid pursues a Bachelor's Degree in Computer Science and Engineering at Daffodil International University, Bangladesh. He focuses on C and object-oriented programming languages like C++ and Java. Jahid has also developed skills on a variety of tools such as Google and has basic skills in Android App development.

Mr Md Istiak Ahmed KHAN
Bangladesh
Undergraduate Student
Daffodil International University

Istiak Ahmed is pursuing a Bachelor's Degree in Computer Science and Engineering with a particular focus on programming and problem solving. He is experienced in object-oriented programming, front-end developing, databases and algorithms. Ahmed is also particularly proficient using Java, Python, C, HTML, CSS, JavaScript and SQL.

Ms Shamsun NAHAR
Bangladesh
MakerLab Outreach Officer
Edward M. Kennedy Center

Nahar is currently working as MakerLab Outreach Officer at the Edward M. Kennedy Center in Dhaka. Making STEM education popular and connecting people with opportunities are her passions, which she gets to put in practice at her workplace. Nahar is a young professional with a Bachelor's Degree in Computer Science and Engineering from the Daffodil International University, Bangladesh.
Ms Tabassum SHAHJAHAN  
Bangladesh  
Undergraduate Student  
North South University

Tabassum is currently studying a Bachelor’s Degree in Computer Science and Engineering at the North South University in Bangladesh. She has been Microsoft Learn Student Ambassador and performed various extracurricular activities such as managing communications at the International Association of Business, or as a facilitator in Girls Who Code.

Mr Rembert JONCKHEERE  
Belgium  
Graduate Student  
Free University Brussels (VUB)

Rembert is currently pursuing a Master’s Degree in Educational Sciences at the Vrije Universiteit Brussel (VUB). Prior to this he obtained a Bachelor’s Degree in Philosophy and a Bachelor’s Degree in Mathematics’ and Physics’ teaching. As a young teacher he co-developed a new secondary school in Brussels, Campus Comenius, in a hyper diverse context involving the application of new teaching methodologies such as self-regulated and blended learning. Rembert is passionate about education for sustainable development, global citizenship education and intercultural learning and helps coordinating yearly capacity building programs for the network of around 35 Flemish UNESCO schools (ASPnet).

Mr Darren YING CHEN YI  
Brunei Darussalam  
Recent Graduate  
University of Brunei Darussalam (UBD)

Darren recently completed his Bachelor’s Degree in Sociology and Anthropology at the University of Brunei Darussalam. In his last internship with the Narcotics Control Bureau, he was able to apply the contents of his studies to understand the wider national fight against illicit substances. His biggest accomplishment was being able to collaborate with an indie game developer from South Korea while juggling his undergraduate thesis and accommodating for cultural differences on top of the language barrier. Darren also participated in the UMAP-COIL Joint Program 2021.

Mr Vannak KHAN  
Cambodia  
Young Professional Official  
The Ministry of Public Works and Transport

Vannak is a Young Professional Official at the Ministry of Public Works and Transport of Cambodia. He holds a Master’s Degree in Urban Planning from the Chung-Ang University, which he obtained after graduating with a Bachelor’s Degree in Sociology at the Royal University of Phnom Penh and a Bachelor’s Degree in International Relations at the University of Cambodia.
Mr Zhebin CHEN

China
Doctoral Student
Nanyang Technological University

Zhebin studied Statistics both for his Bachelor’s Degree and Master’s Degree. He is currently a PhD candidate, and focuses in his research on power system safety assessment. Zhebin aims at operating mathematical methods such as machine learning in the evaluation of power stability and contributing to the sustainable operation of the system.

Mr Vilim BOROŠA

Croatia
Undergraduate Student
Faculty of Chemical Engineering Zagreb

Vilim is currently studying Chemical Engineering at the Utrecht University. Vilim was the winner of the Algebra Future Entrepreneur competition, is part of Rotary family and leads Interact club Zagreb-Zrinjevac as President. He is very interested in sustainability, equality and the use of technology to better the status quo in every way, and currently works as intern at the AI focused start-up Mindsmiths.

Ms Marina KLANJČIĆ

Croatia
Researcher & Data Scientist
LINKS Foundation

Marina holds a Master’s Degree in Information and Communication Technology with a specialisation in information processing and machine learning. She is a researcher and an urban data scientist within the Future Cities and Communities research domain at LINKS Foundation, where she studies cities and regions with a technical approach, mainly focusing on sustainable mobility, transport planning and environment. She was previously awarded with a Lagrange Applied Research Fellowship at the ISI Foundation in Turin, where she researched the connection between urban features and road safety of European cities.

Ms Božena ODOBAŠIĆ

Croatia
Recent Graduate
Aalborg University

Božena is a recent graduate of the Master’s Degree programme in Sustainable Biotechnology from Aalborg University. She is interested in tackling sustainable urban waste management and is working to present projects pertaining to this topic to the local council in her home country, Croatia.
Ms Maria Konstantinou
Cyprus
Undergraduate Student
University of Cyprus

Maria holds a Bachelor’s Degree in Civil Engineering from the University of Cyprus, with a minor in Biomedical Engineering. She interned as Research Trainee in Neuroscience at the Cambridge Centre for Innovation and Development.

Ms Irene Sergiou
Cyprus
Junior Architect
A.K. Karaviotis & Co.

Irene is currently working as an Architect after completing her five-year Bachelor's Degree and Professional Diploma in 2019 from the Department of Architecture - University of Nicosia, Cyprus. As soon as she graduated, she began to gain professional experience to become a licensed architect, and as part of this process, did a one-year internship in Palma De Mallorca and in Vienna under the Erasmus+ programme.

Mr Vojtěch Linhart
Czech Republic
Graduate Student
Stockholm University

Vojtěch graduated with a Bachelor’s Degree in Physics with a focus on Nanotechnology at Palacky University Olomouc. He is currently continuing his studies with a Master's Degree in Physics at the same university, and in parallel, is pursuing a Master's Degree in Decision Analysis and Data Science from Stockholm University. Vojtěch takes part in science literacy and popularisation projects and cooperates across different departments to bring data expertise and data visualisation tools to the table.

Mr Andreas Nielsen
Denmark
Student
KEA - Copenhagen Business Academy

Andreas is a Danish product developer who pursued Product Development and Integrative Technology, Production Technology and Electronics during his studies. His latest business experience comes from working as a designer at a design firm in Copenhagen and as a technician at hospitals in the Capital Region in Denmark. His skills include 3D modelling, printing and rendering, as well as ideation and development, including choice of materials.
Mr Thomas Garnier

France
CEO
367ppm

Thomas Garnier is the CEO of 367ppm and has extensive experience in helping progressive, SDG-committed brands (companies, foundations, NGOs, non-profits) to ethically align their communications with their sustainable missions. His global perspective and expertise ranges from data protection and copyright law, to the philosophies of ethics and environmental science. Thomas started his journey with TED, where he co-founded and curated one of the largest TEDx events amongst European universities.

Ms Kiara Tegbe

France
Graduate Student
Sciences Po

Kiara is currently pursuing her Bachelor’s Degree with a Europe-Asia programme at SciencesPo University. During her studies she had the opportunity to study abroad for two semesters at the Ewha Womans University in Seoul, South Korea. After coming back to France, she chose to study Social Policy and Innovation. Her academic interest is in social justice and sustainability.

Mr Hans Morbach

Germany
Graduate Student
Philipps-Universität Marburg

Hans is currently studying Politics and English at the University of Marburg with the objective of obtaining a certification as a teacher for secondary schools. In addition to that, he teaches a robotics course in an integrated comprehensive school and volunteers in an association that aims to sustainably transform transportation by lending out cargo bikes for free.

Ms Christina Stolz

Germany
Undergraduate Student
Copenhagen Business School

Christina is currently pursuing her Bachelor's Degree in Business, Asian Language and Culture at the Copenhagen Business School. She is also the Vice-President of her study’s student organisation as well as Vice-President and founding member of a society that organises events around Asia-Europe relations, with the flagship event being an annual case challenge in collaboration with Hong Kong University of Science and Technology. Beyond her interest in Asian and European topics, she takes part in various hackathons that focus on problems of social nature.
Ms Júlia POKOL
Hungary
Doctoral Student
Budapest University of Technology and Economics

Júlia is a young architect and PhD student in Budapest. She works on the topic of sustainability in different ways and different fields, which is a key aspect in her work at Opinion Builders Ltd. architecture and BIM design studio as well as in her PhD research. Júlia believes in the power of architecture as a tool to connect engineering, social sciences and psychology, in short as the channel to find better solutions for an environmentally and mentally healthy, cooperative way of living. She is also involved in academic teaching at the Budapest University of Technology and Economics, related to architecture design.

Ms Worood SHBEIKAT
Hungary
Graduate Student
Budapest University of Technology and Economics

Worood is pursuing her Master's Degree in Architecture at the Budapest University of Technology and Economics. Worood was a Student Member of the World Green Building Council. She is also pursuing a one-year program as Young Future Energy Leader at Masdar Institute in the UAE. Her projects revolve mainly around waste management, energy efficiency, and adaptive reuse building designs. During her studies, she won several recognized awards in green building design.

Mr Sainul ABID
India
Graduate Student
Centre of Behavioural and Cognitive Science, University of Allahabad

Sainul is doing his Master's Degree in Cognitive Science at the Centre of Behavioural and Cognitive Science of the University of Allahabad. He completed his Bachelor’s Degree in Electrical and Electronics Engineering and gained an Advanced Diploma in Cloud Computing. Professionally, he worked as a teacher, STEM trainer and ATL in-charge at MEMS International. As an educator, he introduced modern technologies robotics, IoT, AI, ML, 3D printing to young students.

Mr Aditya AGARWAL
India
Undergraduate Student
National Institute of Technology, Silchar

Aditya is a full stack developer pursuing a Bachelor’s Degree in Computer Science and Technology from the National Institute in the city of Silchar, India. Among his various specialisations, he is particularly interested in ethical hacking and cybersecurity.
Mr Shriram ELANGOVAN  
India  
Undergraduate Student  
Indian Institute of Technology Madras  
Shriram is currently pursuing a Bachelor's Degree in Chemical Engineering along with a Master's Degree in Quantum Science and Technology, both from the Indian Institute of Technology Madras. His research interests include Quantum Computing, Nanofluidics, and Electric Vehicles. He is an active member of Raftar Formula Racing, the formula student team of IIT Madras with expertise in designing electric vehicles, and is currently focusing on industrial applications of Quantum Computing in areas such as Finance, Vehicle Routing, etc. His research is backed by his professional experience through internships in an electric vehicle startup and a quantum computing startup, respectively.

Mr Vai GUPTA  
India  
Undergraduate Student  
Ritsumeikan University  
Vaibhav is currently pursuing a Bachelor's Degree in Information Technology and Computer Science from the Ritsumeikan University in Japan. He is enrolled in the Google Developer Student Club at his university as a coder. Vaibhav is also interning at the mobile game company Yodo1 Games. He learnt to use tools related to data science or data analysis, such as R or SQL. Vaibhav worked on projects in his university for web and application development (HTML, CSS, JavaScript). I have also used Figma for designing UI and UX.

Ms Kruthika K  
India  
Associate Software Engineer  
Lowes India  
Kruthika graduated with a Bachelor’s Degree in Computer Science from the Ramaiah Institute Of Technology. She currently works as an Associate Software Engineer in Lowe’s Companies in the field of Order Management Systems. Kruthika has also worked with NGOs like TYCIA and Bhumi to raise awareness for tribal girl education and financial literacy.

Ms Ramya KHARE  
India  
Associate Fellow  
Delhi Assembly Research Centre  
Ramya is currently an Associate Fellow at the Delhi Assembly Research Centre where she conducts policy research particularly regarding development policies, urban planning and welfare schemes. Previously she worked with Shelter Associates, a Maharashtra-based NGO, where she led affordable housing projects carried out in partnership with slum communities of Kolhapur and the Pradhan Mantri Awas Yojana Cell. She completed her Bachelor’s Degree in Architecture from the School of Planning and Architecture of Delhi in 2017 where she developed a keen interest in urban informality in its various forms. She recently finished a PG Diploma in Spatial Development Planning from KU Leuven, Belgium in 2021.
Ms Parita PATEL
India
Undergraduate Student
Dhirubhai Ambani Institute of Information and Communication Technology

Parita is currently pursuing her Bachelor's Degree in Information and Communication Technology at Dhirubhai Ambani Institute of Information and Communication Technology. She was an exchange student of the KL-YES program to the USA and volunteers with AFS India, where she organised numerous community service projects around the topic of peace. Her research interests lie in human-computer interaction, and she did a summer research project on designing interfaces for the elderly.

Mr Said AHMAD
Indonesia
Research Assistant
Universitas Gadjah Mada

Said holds a Bachelor's Degree in Physics from the Universitas Gadjah Mada. He is currently a Research Assistant at the UGM Department of Physics and a Graphic Designer at Rongsok Design. Since 2017, he has been a volunteer at Humanity First Indonesia, a non-profit organization that provides disaster relief and long-term development assistance to vulnerable communities.

Mr Valentino JEHAUT
Indonesia
Undergraduate Student
ITB STIKOM Bali

Valentino is currently pursuing a double Bachelor's Degree in Information System and Information Technology at the Institute of Technology and Business STIKOM Bali. He is also a part-time freelance web developer, and his work ranges from one-page websites for small businesses to making multiple-page websites and web maintenance.

Ms Rellisa KUSUMA
Indonesia
Undergraduate Student
Padjadjaran University

Rellisa has a Bachelor's Degree in Computer Science from the Padjadjaran University. She has internship experience as a back-end web developer in Campuspedia Indonesia. Prior to this she held a position also as back-end web developer at PUI-PT Disruptive Learning Innovation.
Mr Hendri Surya  
**WIDCAKSANA**  
Indonesia  
Recent Graduate  
Universitas Gadjah Mada

Hendri is a Computer Science fresh-graduate from Universitas Gadjah Mada and has a keen interest in Management Consulting, Finance, and Environment & Sustainability. He facilitated a strategy and research team at YOUNGO, the UNFCCC Youth Constituency. Hendri represented his country in national and international forums and conferences, such as the People's Choice Award of ASEAN-Australia Youth Innovation Challenge in 2020 – which he won - or the HPAIR Harvard Conference.

Ms Dusara  
**JOHNSTON**  
Ireland  
Graduate Student  
Trinity College Dublin

Dusara is a Master's Degree candidate in Smart and Sustainable Cities at the Trinity College Dublin. Her Bachelor's Degree was in Social Anthropology and Sociology. Dusara has experience in non-profit development work, which she gained through internships she undertook while she was pursuing her Bachelor's Degree.

Mr Ferruccio  
**BARAZZUTTI**  
Italy  
Associate ICRC

Ferruccio holds a Bachelor's Degree in Philosophy, International Studies, and Economics and a Master's Degree in International Cooperation. Ferrucio is currently working as a WeC Associate at the International Committee of the Red Cross and has previously worked as a Blue Book Trainee at the European Commission (DG INTPA), as Project Manager at AESA and as Conflict Analyst at COAR.

Ms Stefania  
**ESCOBAR**  
Italy  
Doctoral Student  
Free University of Bozen-Bolzano

Stefania is a sustainability enthusiast who decided to focus on the impact of tourism at city level after working in the field. To this end, she is currently embarking herself in a PhD journey focusing on sustainable urban development of those cities that have a significant tourism impact and the ways to make this impact a fruitful resource in the hands of communities.
Mr Yusuke KAGA  
Japan  
Student  
Paris Tech University

Yusuke has a background in Biomedical Engineering and his research lies on the topics of novel cancer treatment, protein aggregation mechanism related to Alzheimer's disease or dementia and AI applications for automatic diagnoses. With his biomedical experiences as well as coding about machine/deep learning, Yusuke is passionate about state-of-art technologies and start-up firms that are related to the topics of his research.

Ms Maral BAIZHUMINOVA  
Kazakhstan  
Student  
Nazarbayev University

Maral is currently pursuing a Bachelor’s Degree in Computer Science at Nazarbayev University in Nur-Sultan, Kazakhstan, with the aim of becoming a professional software engineer and creating designs to make life better. Her interest areas include full-stack web development, graphic design, and data science.

Mr Yhai PHOMMACHAN  
Lao PDR  
Executive - Human Resource Organization Development  
Bank for Investment and Commerce Lao - BIC Bank Lao

Yhai is currently working at the BIC Bank Lao. He holds a Bachelor's Degree in International Relations from Faculty of Law and Political Science of the National University of Laos. During his university life, he has been actively engaged in the Asian Law Students' Association in the fields of Training & Exchange Development and Debating. Yhai also interned at the Ministry of Foreign Affairs, and has worked as Project Executive at the Malaysian social enterprise People Systems Consultancy Bhd, which aims at eradicating poverty in Laos and the ASEAN region.

Ms Aleksandra MOSTOVAJA  
Latvia  
Undergraduate Student  
The Royal Danish Academy of Fine Arts

Aleksandra is pursuing a Bachelor's Degree in Architecture at the Royal Danish Academy of Fine Arts. Prior to this, Aleksandra has engaged in various extracurricular activities such as debate clubs or the Academy for Talented Youth.
Mr Lukas GUDELIS
Lithuania
Student
Nemenčinė's Gediminas Gymnasium

Lukas is a high school student at Nemenčinė's Gediminas Gymnasium. He has worked with various communities and youth in local, national and international NGOs, mainly on the topics of active participation of youth, communality, citizenship, youth policy. Lukas has a keen interest in Economics, Politics, Sociology and Urbanisation, and was previously engaged in Youth Exchanges under the Erasmus+ Programme.

Ms Wei Lun TEE
Malaysia
Undergraduate Student
University Of Malaya

Wei Lun is currently pursuing her Bachelor's Degree in Computer Science (Computer System and Network) at the University of Malaya. She is enthusiastic and motivated to deepen her knowledge of coding, computer networks and system and cybersecurity.

Ms Anarmaa OTGONBAYAR
Mongolia
Document Controller
MCS Property

Anarmaa holds a Bachelor's Degree in Urban and Regional Planning from the National University of Mongolia. She wrote her thesis on spatial organisations issue of urban public open spaces. She is currently working as a Document Controller in a leading construction company. In her work she supports construction projects tasks, assisting managers and the project team. Anarmaa has been volunteering occasionally since high school on projects helping elders and children in need.

Ms Ei Ei KHAING
Myanmar
Undergraduate Student
Myanmar Institute of Information Technology

Ei Ei is a Global Volunteer of AIESEC in Vietnam, where she has conducted workshops to raise awareness on the Sustainable Development Goals among youth. Ei Ei has been involved in various youth organisations and international events and graduated from the Red-Cross Myanmar basic training. She is currently pursuing a Bachelor’s Degree at the Myanmar Institute of Information Technology.
Ms Ellen VOORRIPS
Netherlands
Researcher
KU Leuven

Ellen has a background in Psychology and Neuroscience, where she pursued to gain deeper insights into human functioning. Her research interest primarily focused on biological, neurological discoveries. Over the years her interest became more holistic and she started to include political motives, societal drives and general well-being. Ellen has also academic experience in computational skills (programming, analysis).

Mr Muhammad Zahid IQBAL
Pakistan
Doctoral Student
University College Dublin, Ireland

Muhammad is a PhD researcher at the School of Computer Science, University College Dublin, Ireland. His research lies on human-computer interaction, augmented reality in education, touchless interactions technologies, artificial intelligence, and e-learning. Muhammad is also an alumnus of the Heidelberg Laureate Forum in Germany.

Mr Hasan LANEWALA
Pakistan
Project Engineer
Alfalaf Developers and Builders

Hasan is a Mechanical Engineer with experience in the automotive, manufacturing and housing industry. Through exposure to international and local firms, he has worked on technical and innovative projects, which have allowed him to improve his problem-solving, teamwork, communication and leadership skills. Additionally, Hasan also volunteered at many organisations primarily focusing on education, healthcare and environmental sustainability.

Mr Anas MUMTAZ
Pakistan
Recent Graduate
Comsats university Islamabad Wah campus

Anas has pursued his Bachelor’s Degree in Electrical Engineering studies at Comsats University, Islamabad Wah Campus. He is passionate about the betterment of the environment and social innovation, applying the knowledge and skills he gained during his studies.
Ms Nimrah PERVEEN
Pakistan
Undergraduate Student
University of Gujrat

Nimrah is a Software Engineer from Pakistan who graduated from the University of Gujrat. During her studies she developed skills further than programming, such as game development, entrepreneurship, digital marketing, graphic design or web development.

Ms Sayeda Shahpara SHAH
Pakistan
Architect
Studio Ecomorph

Sayed did her Bachelor’s Degree in Architecture Design at Indus Valley School of Art and Architecture. After graduating, she pursued her interest in sustainable architecture and urban design, contributing to many communities' uplifting projects, carried out using sustainable materials like earth, mud and bamboo. Based on her prior experience in urban projects she is now contributing towards "The Burns Road Project" which caters to the need for Urban Open Space in the dense fabric of Karachi while reviving and preserving the cultural and architectural heritage of the country.

Mr Ahsan Qamer SHEIKH
Pakistan
Graduate Student
Universität Stuttgart

Ahsan is pursuing a Master’s Degree in Infrastructure Planning at the Universität Stuttgart in Germany. His majors include urban planning, transport network designing, water resource and rail engineering. Prior to this he did a Bachelor’s Degree in Urban & Infrastructure Engineering from the NED University of Engineering and Technology in Pakistan. In his free time, Ahsan volunteers for IEEE and ACI.

Mr Jared Lyle ANG
Philippines
Undergraduate Student
Saint Louis University - Baguio City

Jared is pursuing his studies in Mechatronics Engineer at the Saint Louis University in Baguio City. He is interested in applying his skills to help any community in creating sustainable solutions. On top of this, Jared is an amateur programmer who is trying to gain more experience and knowledge through the application of problem-solving.
Mr Justin Phillip Chan
Philippines
Graduate Student
Modul University Vienna

Justin graduated with a Bachelor's Degree in International Relations and Diplomacy at Ateneo de Manila University, Philippines. He is currently pursuing a Master's Degree in Sustainable Development, Management and Policy at Modul University Vienna, Austria. Besides his studies, he is also a Transport Research Intern at Clean Air Asia Manila, helping in the creation of a white paper for electric mobility in the Philippines. Sustainable transportation is an interest of his, but he researched on biodiversity conservation and sustainable production, too. Justin is also a copywriter for the United Nations Global Compact Report.

Ms Jadlene Shani Teng
Philippines
Community Team Member
UX Philippines

Jade is a Visual Designer, Hand-lettering Artist, and Certified Public Accountant. She holds a Bachelor's Degree in Business Administration and Accountancy. She currently volunteers with UXPH (UX Philippines) as part of the Community Team and is in the process of transitioning to a design career. Previously, she worked in the tax compliance group at an auditing firm and has volunteered in various Philippine tech communities and local and global non-profit youth organisations.

Ms Anna Wierzbicka
Poland
Graduate Student
University of Strasbourg

Anna is a Polish national who graduated with honours from the Beijing Language and Culture University with a Bachelor's Degree in Chinese Language. Currently she is interning at the Centre for International Relations in Warsaw, Poland, as a part of her Erasmus Mundus Joint Master Degree in Euroculture at the University of Strasbourg, France, and the University of Groningen, the Netherlands. Anna is also a member of European Guanxi, a network of students and young professionals fostering EU-China relations, as part of its Strategic Communication Team.

Ms Sofia Barbeiro
Portugal
Fundraising Strategist
Girl Move Academy

Sofia is an experienced young professional who has worked with NGOs, bilateral and multilateral institutions in International Development and Cooperation. She holds a Double Master's Degree in Management and is currently a Fundraising Strategist at Girl MOVE Academy, working in project design and funds management for gender equality advancement in Mozambique. Sofia is also a Board Member of the Youth Climate Leaders (YCL) Portugal and in 2021 she was selected as the Portuguese Ambassador of the Global Youth Climate Network (GYCN).
Ms Diana SANDU
Romania
Research Assistant
University of Southern Denmark

Diana holds a Master’s Degree in Web Communication Design and currently works as a Research Assistant in Design and Communication. Diana is one of the co-founders of the first community fridge in Kolding, Denmark, and the Substitute Chairperson of Food Reformers, an NGO based in Denmark working on tackling food waste and creating a social platform around sustainability. Diana has previously worked in the renewable energy sector at Siemens Gamesa and has been involved in various projects regarding sustainability such as the “2030 Challenge”.

Ms Anastasia BREDIKHINA
Russian Federation
Undergraduate Student
Russian University of Transport

Anastasia is currently pursuing a Bachelor’s Degree in Logistics at the Russian University of Transport in Moscow. She publishes scientific articles about transport in student journals. She takes part in conferences and forums that deal with sustainable development and urbanisation. Anastasia was a member of Nestle Supply Chain Intensive and took part in the Ecological hackathon from the Russian Railways.

Ms Valeriia TATIANINA
Russian Federation
Graduate Student
Graduate student, KTH Royal Institute of Technology

Valeriia is a Stockholm based urban designer and architect with a strong interest in sustainability, environmental justice and space-making. She holds a Bachelor’s Degree in Architecture from the Moscow Institute of Architecture. She recently graduated with a Master’s Degree in Sustainable Urban Planning and Design from the Royal Institute of Technology in Stockholm. Valeriia currently pursues a career in urban design with a focus on sustainability.

Ms Ariel CHEN
Singapore
Development Partner
Enterprise Singapore

Ariel graduated in Economics and Software Engineering. She has experience with a variety of roles in Sensor Web Enablement. Ariel specialises in data analysis, front-end engineering, back-end and cloud deployment and is a Development Partner at Enterprise Singapore.
Mr Kendrik LIM
Singapore
Doctoral Student
Nanyang Technological University

Kendrik is concurrently pursuing a PhD specialising in Engineering Informatics at Nanyang Technological University, Singapore, with a particular focus on translating theoretical digital twin paradigms into industrial applications. He also leads projects as a research engineer at Singapore’s Agency of Science and Technology (A*STAR). Kendrik holds a Bachelor’s Degree in Mechanical Engineering from NTU, and completed a Master’s Degree in Industrial Engineering from Chiba University, Japan, under a government scholarship.

Ms Su Chen TEH
Singapore
Manager
Ministry of National Development

Su Chen holds a Degree in Economics and Environmental Engineering from Rice University, USA. She currently works on promoting sustainability and liveability through urban and land use policy at the Ministry of National Development in Singapore. She also has past overseas work experiences at a renewable energy non-profit organisation and an environmental asset management company. She has been actively involved in projects and civil society in the field of climate change and the environment. Su Chen previously completed an internship with the Education Department of the Asia-Europe Foundation and is an ASEFEdu alumnus.

Ms Katja FRELIH
Slovenia
Graduate Student
University of Ljubljana, Faculty of Architecture

Katja is currently finishing her Master’s Degree in Urbanism at the University of Ljubljana, after completing her Bachelor’s Degree in Urbanism at the same university. During her studies she went on an Erasmus+ exchange to the Netherlands, specifically at the Saxion University of Applied Sciences. Katja has done two internships - the first one at the Ministry of Infrastructure and Spatial Planning and the second one at the Urban planning Institute of the Republic of Slovenia. Katja has also volunteered for architecture festivals in Slovenia, such as Month of Design, BIG SEE Architecture and Open Houses.

Ms Anaëlle BUENO PATIN
Spain
Graduate Student
University of Amsterdam

Anaëlle is a French-Spanish student currently pursuing a Master’s Degree in Urban Studies at the University of Amsterdam. She has previously completed a Bachelor’s Degree in Sociology at the Sorbonne University, where she also realised a one-year Erasmus+ exchange at the University of Copenhagen in the department of political science. Her professional interest lies in collaborative governance and participatory processes in local climate adaptation.
Ms Patlapa SEREECHAIPORN  
Thailand  
Architect  
Design 103 International Ltd.  

Patlapa holds a Bachelor’s Degree in Architecture from Silpakorn University, Thailand. In 2018, Patlapa did an internship through the IAESTE exchange programme as an architect assistant in Poland. She was also an AFS exchange student in Switzerland during her high school years. Patlapa is currently working as an Architect at Design103 International Ltd.

Mr Babatunde ONABAO  
United Kingdom  
Director  
ChurchMapped Limited  

Babatunde is the Director of the start-up ChurchMapped Limited, which covers the heritage and history of churches around the world. Babatunde is a programmer with extensive experience in HTML, CSS, JavaScript, Java, PHP and MySQL and was most recently a contestant in IP2Location's coding challenge. He is currently working on contributing to the PHP language. He is also experienced with Adobe software and has an interest in the community surrounding the 3D software Blender. Babatunde is an ASEFEdu alumnus.

Mr Eric NGUYEN  
Viet Nam  
Research Staff  
Southern Taiwan University of Science and Technology  

Eric holds a Bachelor's Degree in Electrical Engineering from the Southern Taiwan University of Science and Technology and currently work as research staff in the Engineering Mechanics Laboratory of the same university. Eric is also an Embedded Software Engineer at an IoT company, which is responsible for designing and programming IoT products.

Mr Trí TRAN  
Viet Nam  
Finance Director  
WeShare  

Trí is working as a Manager at the subsidiary of a Global Fortune 500 company and is the co-founder of a social start-up advocating for poverty eradication, COVID-19 recovery and climate resilience. He has a strong background in finance and strategic consulting and has been previously a Management Trainee at Prudential.
Hackathon Team Leaders

Mr M M Zimran KHAN
Bangladesh
Head of Exploration
UNDP

Zimran is a development professional with 10 years of experience in a diverse range of roles. He is currently serving as the Head of Exploration at the United Nations Development Programme (UNDP) and accelerating progress towards the Sustainable Development Goals.

Zimran is an Innovator Fellow at the European Institute of Innovation & Technology (EIT) and an Ambassador at the UNLEASH Innovation Lab. Earlier, Zimran served at the Asian Development Bank and in the private sector. Through these experiences, he gained valuable expertise in development programming, project management, collective intelligence, design thinking, technology diffusion, and social innovation.

Mr Md. Sadril KHAN
Bangladesh
Faculty Member
Department of Environmental Science and Disaster Management, Daffodil International University

Sadril is a Faculty Member at the Department of Environmental Science and Disaster Management, Daffodil International University (DIU). He has a MSc. Degree in Renewable Energy & Resource Management from the University of South Wales, United Kingdom. His received his Bachelor's Degree in Geology from the University of Dhaka, Bangladesh. Sadril's research interest includes Renewable & Non-Renewable Energy, Waste Management and Wastewater Treatment, Climate Change and Global Warming, Environmental Laws and Policies. He is actively involved in many waste management and wastewater treatment projects at DIU. Sadril also contributes to the DIU's commitment to implement the Sustainable Development Goals (SDGs) through teaching and research.

Ms Samia Anwar RAFA
Bangladesh
Architect
Platform of Community Action and Architecture (POCAA)

Samia graduated from Bangladesh University of Engineering and Technology (BUET) with a Bachelor's Degree in Architecture. Throughout her academic life, she has been involved in multiple committees, for example as Vice President of the Architecture Students' Association (BUET).

Samia is currently working as a Community Architect at the Platform of Community Action and Architecture (POCAA), an open-to-all platform comprised of architects and built professionals. Her work with POCAA strives to provide a citywide solution to the land and housing problems of excluded communities in Dhaka city. Her team is now working at Gabtoli sweepers’ colony, where they are improving the community's living environment through community-led housing design.
Ms Tahreem SHAH
Bangladesh
Assistant Vice President (Impact Business)
Green Delta Insurance Company Ltd

Tahreem is a fresh graduate Architect and a Yunus & Youth Fellow. She was recently selected by the Bard College in the US to attend the OSUN Summer Credit Course on 'Women and Covid-19: Activism, Leadership, and Global Engagement'. Following an architectural internship in Norway, she started to get involved in local initiatives that focus on urban disaster preparedness – in particular those the focus on architectural design and financial inclusion of low income communities. Tahreem is the founder of the social business initiative 'Bhorosha' and has dedicated her work to contribute to socially responsive architecture and find solutions for informal settlements.

Mr Vihang JUMLE
India
Student
Hertie School of Governance

Vihang is a graduate Public Policy student in Germany. He previously worked with the Red Dot Foundation - Safercity as Data Analytics Lead and Monitoring & Evaluation Officer, with Ikigai Law in tech policy and later with the World Wildlife Fund for Nature in the TRAFFIC division (Wildlife Trade Monitoring Network) in India on the issues of wildlife cybercrime. Vihang takes an interest in political economy, the role of institutions in nation building, governance and diplomacy. He is currently exploring different aspects of populism and political communication and is skilled in both quantitative and qualitative research. He graduated with a Bachelor’s Degree in Information Technology Engineering from Mumbai University in 2019 and was inducted into his college’s ‘Hall of Fame’. Vihang is an ASEFEdu Alumnus.

Ms Rushda PATEL
India
Student
Savitribai Phule Pune University

Rushda completed her undergraduate degree in Pharmaceutical Sciences from the University of Pune and is currently a Research Intern at the Proteomics Lab, Indian Institute of Technology Bombay. Rushda has participated in various hackathons with themes ranging from digitalization in healthcare to redesigning learning spaces, and emerged as the winner of the DigiEduHack International Hackathon, EIT Health Spain Challenge 2020. She has been part of several youth leadership organisations, including AIESEC and the LedBy Foundation, a Harvard-based leadership incubator, and supported the YouthSpeak Forum 2018, in Pune. Rushda is actively involved in championing women-oriented causes by working in a pro-bono capacity for NGOs that focus on women empowerment as well as the setup of support helplines for the COVID-19 crisis in India.
Ms Neha RANA  
India  
Student  
Indian Institute of Technology, Madras  

Neha is currently pursuing a Dual Degree (M.Tech+ B.Tech) in Energy Systems and Chemical Engineering from the Indian Institute of Technology, Madras. Next to her studies, she volunteers as a United Nations Technical Assistant for a solar village project. An advocate for sustainability, Neha is also the founder of a global non-profit organisation called Impact Pods that aims to empower youth with the knowledge of sustainable finance and provides them with an opportunity to work on global impact projects. In the past, Neha analysed the country-specific policies for the 2030 Agenda and has additionally written a strategy paper for the UN High-level Dialogue on Energy.

Ms Smriti VENKATRAMAN  
India  
Undergraduate Student  
Krea University  

Smriti is currently pursuing her Bachelor’s Degree in Economics and Environmental Studies Joint Major along with a concentration in Business Studies at Krea University, India. She intends to pursue her Master's Degree in Environmental Management and Consultancy. With a keen inclination towards sustainable development, Smriti has curated and co-curated many academic and non-academic projects related to this field. She is a coordinator at ‘OneShared.World’ which is pioneering in spreading the concept of an interconnected world. Smriti has diverse work experiences, including a research project on climate change impact in the Sundarbans, in the corporate sector with a Berlin-based company and with a social impact foundation in New Delhi.

Mr Arhum ISHTIAQ  
Pakistan  
Cofounder CTO  
ConnectHear  

Arhum is a student researcher, consultant, and social entrepreneur. He is a Digital Media Consultant for American Councils and the co-founder/CTO of Pakistan’s largest deaf accessibility and sign language literacy service provider, ConnectHear. Arhum’s primary interest lies in extending the use of artificial intelligence and machine learning for social development. His current area of research is enabling advanced computer vision capabilities on limited compute. In his free time, Arhum documents his quirky A.I. misadventures on "A.I. does A.I.". He is also one of Pakistan's first-ever Diana Award recipients and was recently recognised as the Global Champion by the World Summit Awards in their Young Innovators category.

Ms Samna KHAN  
Pakistan  
Course Manager  
atomcamp.com  

Samna is an Architect. She pursued her MSc in Urban Management & Development from Erasmus University, The Netherlands. She is currently working as a Course Manager at atomcamp, a skills training firm and with Urban Innovation as a Strategy Specialist. Her professional objective is to integrate urban design processes with research and policies for strategic planning of the cities. As a researcher in Pakistan, she has been involved in projects pertaining to urban regeneration, sustainable mobility, public spaces, sustainable tourism, heritage conservation and housing policy. She has also developed curricula for training workshops for students and public officials on urban management.
Ms Amna SHOAIB

Pakistan
Lecturer
Lahore College for Women University, Lahore

Amna is an Urban Planner by profession and currently working as a Lecturer at Lahore College for Women University, Pakistan. She has almost seven years of experience in teaching, research, and consultancy projects related to urban development in Pakistan. Her research interest lies in sustainable development, transportation, and environmental planning with a specific focus on SDG 4, 11 and 13. Amna is passionate to develop sustainable and user-friendly cities with effective policy mechanisms for the future.

Ms Shiza TANWEER

Pakistan
Recent Graduate
Bath Spa University, UK

Shiza is an Urban Planner and Environmental Manager. She holds a Bachelor's Degree in City and Regional Planning from UET Lahore and an MSc in Environmental Management from Bath Spa University, the United Kingdom. She secured a fully-funded Commonwealth Shared Scholarship for her Master’s studies in the UK. Shiza has worked with urban and environmental development organizations in the areas of master planning, spatial development and housing. She also has overseas work experience in carbon management. She has a vision of accessible, equitable and inclusive urban development.
