

AGTUALL

Enabling climate
adaptation and risk
management

Agtuall provides decision support for risk management and climate adaptation throughout the agriculture crop value chain, from production to post-harvest.

Monitoring, Reporting and Verification platform for climate smart agriculture

Establish baseline practices

Recommend new practices

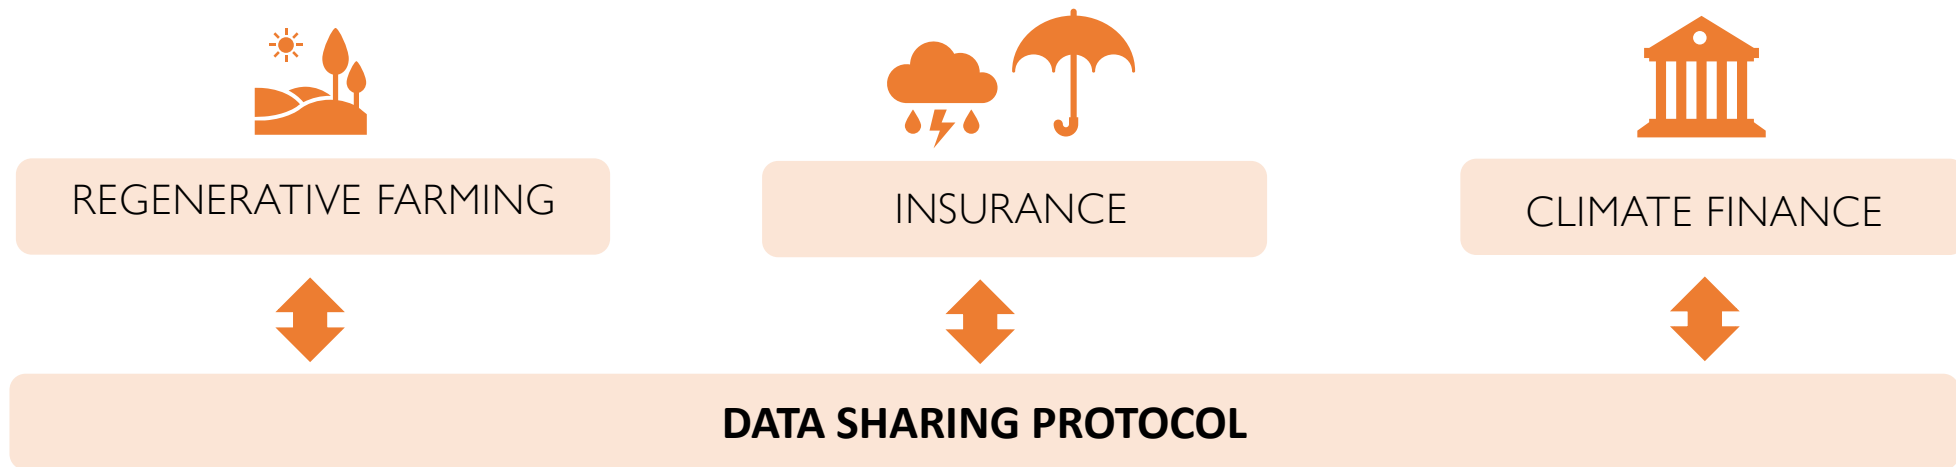

Seamlessly share reports

Create new revenue streams

Data sharing protocols is a must have to scale up Decarbonisation of Food Supply Chains.

A close-up photograph of a person's hands holding several fresh, vibrant green leaves. The person is wearing a green and yellow patterned garment. The background is a blurred field of similar green plants, suggesting an agricultural setting. The lighting is bright and natural, highlighting the texture of the leaves and the skin of the hands.
