10th ASEF Regional Conference on Higher Education
[Un]debated Ways of Rethinking Higher Education

OVERVIEW
OVERVIEW

The ARC Programme

The ASEF Regional Conference on Higher Education (ARC)\(^1\) is the Official Dialogue Partner of the ASEM Education Ministers Meeting (ASEMME). For the past 15 years, ARC has continuously evolved and contributed with various outputs (policy recommendations, research, and events) to the ASEM Education Process, and created opportunities for key Asian and European stakeholders to connect. ARC’s role as a valuable dialogue partner has been reiterated in all ASEMMEs, and its outcomes and outputs helped to sustain a dynamic ASEM Education Process.

The ARC programme cycle covers two years and is aligned with the timeline of the ASEM Education Ministers Meetings. Its results, including research, and policy recommendations, feed into the preparations for ASEM Education Senior Officials’ Meetings (SOMs) and the ASEM Education Ministers Meetings (MEs), which ARC experts are invited to attend.

ARC’s objectives are straightforward, but impactful:

- **Facilitate exchange of good practices and networking**
  among policymakers, universities and student organisations in Asia and Europe

- **Inform policymakers**
  by collecting evidence and conduct policy dialogues with stakeholders of the ASEM Partner Countries, the European Union and the ASEAN Secretariat

In 2024, ARC begins its tenth edition which will run until the end of 2026, in sync with the ASEM Education Process cycle.

Background of ARC10

In the 9th ASEM Education Ministers Meeting (ASEMME9), the Ministers underlined the continued importance of working towards the Sustainable Development Goals (SDGs) and contributing to achieving inclusive, equitable quality education through the implementation of SDG4. Fostering continued cooperation and dialogue as well as knowledge and people-to-people exchange between Asia and Europe were also supported, especially in the ASEM Education Process’ key priority areas: 1) SDGs and Education, 2) Recognition and Balanced Mobility, 3) Lifelong Learning and TVET, and 4) Digitalisation.

These pronouncements, as detailed in the ASEMME9 Chair’s Conclusions, stand as ASEFEdu’s guideposts in pursuing the succeeding edition of the ASEF Regional Conference on Higher Education (ARC) Programme—the Official Dialogue Partner of the ASEM Education Ministers. ARC10 will revolve around the future of higher education in Asia and Europe, given the trends and developments that higher education must cope with. Racing to meeting the SDGs, climate change, geopolitical disruptions, inequalities and disparities on various fronts, and digital transformation are some of the most pressing developments that are changing the higher education landscape in various fronts. Current global challenges that affect how education evolves require new approaches and changes in strategies.

\(^1\) Formerly called the ASEF Rectors’ Conference and Students’ Forum (ARC), From ARC8 onwards, the project will be renamed to the ASEF Regional Conference on Higher Education, merging the Rectors’ Conference and Students’ Forum for greater synergies and impact.
Higher education has a key role to fulfill in transforming our collective future, and as such, UNESCO calls for substantive changes to reinvent higher education and proposes multiple ways to do so in its recent reports:

- Beyond Limits: New Ways to Reinvent Higher Education (UNESCO, 2022)
- Knowledge-driven Actions: Transforming Higher Education for Global Sustainability (UNESCO, 2022)

With the foregoing in mind, ARC10 will work on thematic papers leading to a publication, interactive webinars, capacity building activities and policy dialogues focused on the theme “[Un]debated Ways of Rethinking Higher Education,” which will be divided into five sub-themes. These subthemes will explore what the ASEM Education Space hopes to achieve by 2030 and beyond in areas where a deeper global conversation is needed.

### Activities

**Thought Leaders’ Debate Webinar Series | June-November 2024 | Online**

Thought leaders, subject matter experts, and representatives of key stakeholder groups will be invited to share their perspectives on the future of higher education on a given sub-theme. We hope to produce thematic papers anchored in thought-provoking discussions based on diverse views that will capture a collective vision of how a key area of higher education will evolve in the coming years.

Below are the topics and tentative dates for the sessions:

- **Session 1: Rethinking Digital Transformation**  
  24 June 2024
- **Session 2: Rethinking Lifelong Learning**  
  08 August 2024
- **Session 3: Rethinking Equitable Access Success**  
  05 September 2024
- **Session 4: Rethinking Quality Assurance and the SDGs**  
  03 October 2024
- **Session 5: Rethinking Ethics, Transparency, and Integrity in HE**  
  07 November 2024

**Policy Dialogue Sessions | 18-22 November 2024 | Bangkok, Thailand**

As ARC is the Official Dialogue Partner of the ASEM Education Ministers, the policy dialogues are well expected to align with the ASEM Intermediate Senior Officials Meeting (ISOM) to be hosted by Thailand. We will also be co-organising a panel dialogue session as part of the SEAMEO Regional Centre for Higher Education and Development’s (SEAMEO RIHED) 2024 Inter-regional Research Symposium.

Both events will be held back-to-back in November in Thailand and will be an opportunity to hold dialogues with policymakers and university officials on select ARC10 subthemes. Select experts
will also be invited to present the highlights of the Thought Leaders’ Webinar Sessions conducted throughout the year. The launch event for the ARC10 report will also take place during these events.

**Capacity Building and Dialogue Events** | March-October 2025 | Online and Onsite

Based on the outputs of 2024, ARC10 activities in 2025 will primarily focus on a series of policy dialogues to bring the ARC10 report consisting of the thematic papers closer to ASEF’s partners and stakeholders. Through these policy dialogues, we will work in close collaboration with the ASEM Education Process Expert Groups and Stakeholders and gather policy recommendations with the aim of forwarding these to the ASEM Education Ministers.

The main target groups for consultation are student and youth leaders, ASEM education policymakers, and university managers.

In addition to capacity-building and dialogue opportunities, ASEFEdu will also participate in various events in Asia and Europe and present the highlights and milestones of the project.

**10th ASEM Education Ministers Meeting** | mid-2026 | India

ARC, as the Official Dialogue Partner of the ASEM Education Ministers, will provide inputs to the policymakers discussions and for the deliberation of the Ministers.

**Outcomes and Impact**

The project will generate various outcomes both tangible and intangible, such as:

- Five webinar series on the ARC10 sub-themes
- A series of capacity building activities and policy dialogues with stakeholders of the ASEM Education Process, such as policymakers, university managers, and student and youth leaders which will disseminate findings and gather policy recommendations
- Stronger networks that facilitate various exchanges (cultural, intellectual, and people-to-people) among participating individuals and organisations
- Increased knowledge on practices and plans aligned with the ARC10 subthemes
- Increased capacity of ASEM policymakers to contribute to the attainment the Agenda 2030 and pursuing the New Social Contract for Education
- Enhanced knowledge among participants of the ASEM Process

ARC10’s impact will focus on strengthening dialogue and connectivity among higher education stakeholders in Asia and Europe through:

- Evidence-based policy dialogues, exchange of good practices among ASEM Education stakeholders
- Content put into the policy dialogue process towards futuristic policies aimed at reimagining higher education at various levels, be it at the national, regional, and – representing the Asia-Europe position – global level
- Increased awareness and engagement on the role of higher education in transforming the future, especially with the Agenda 2030 and the New Social Contract for Education

...
ASEF is an intergovernmental not-for-profit organisation located in Singapore. Founded in 1997, it is the only institution of the Asia-Europe Meeting (ASEM). ASEF promotes understanding, strengthens relationships and facilitates cooperation among the people, institutions and organisations of Asia and Europe. ASEF enhances dialogue, enables exchanges and encourages collaboration across the thematic areas of culture, education, governance, sustainable development, economy, public health and media.

One of ASEF’s flagship projects is the ASEF Regional Conference on Higher Education (ARC), the Official Dialogue Partner of the ASEM Education Ministers Meeting (ASEMME) and the only bi-regional multi-stakeholder dialogue platform for university and student leaders, policymakers and ministers to discuss higher education issues and shape the education landscape in Asia and Europe.
